Russell Susag from 3M stopped by this morning October 13, 1992. He indicated that Joe Crea was a person to talk to concerning the Pig's Eye. He also said that 3M used a St. Paul Trucking firm to carry it's wastes. This firm is now Space Center.

* City of St. Paul memo on 3M waste previously hauled to Harry McNeely farm, located off Highway 94, will now be hauled to Pigs Eye. Memo from spring 1961.

* Interview with Kent Schonberger, retired City of St. Paul Public Works engineer on October 29, 1992. When asked about location of Harry McNeely farm, he said that Harry McNeely was the former President of Space Center and that Space Center owned warehouses off Lafayette and 94. He thought there was dumping done by warehouses.

* Russell Susag, from 3M, told MPCA that 3M used a St. Paul Trucking firm to carry its waste. The trucking firm is now Space Center.

* Barrels were found during construction of Union Gospel Mission building, approximately 1980. Contaminated soil had high levels of xylene. Barrels were reburied on the site and a liner was placed under the construction. Contractor from the project thought barrels had labels or other markings which identified them as 3M property for he remembers them as being from 3M.

* Russel Susag (3m) 3m used a St. Paul Trucking firm to carry its waste. The firm is now space center.

former hauler withered 3m dumping 55 gal. barrels + having security guards posted.

SW files - 3m area - mostly plastics
25 yds at _____

waste summary 100% of piss-ey are cellulosic
waste similar to materials deposited by 3m

Union Gasper

soil had high levels of Vylene
barrels found in 1980

Contractor on Union Gasper blg. believes barrels
were from 3m - thought they still have labels
or markings which identified them
Barrels were rebound on site

3m waste

St. Paul name on 3m waste previously
moved to Harry "mucky" farm now in
we dump at pigs cage.

10-29-92 Interview w/ Kent Schmeisser
engineer

retired st. Paul public works employee -

we when asked about 3m waste & Harry

mucky land kept stated that Harry

mucky lives local of space center and at

one pond space center had trading business, 3 mucky

the business and are the business 3 mucky

3m waste. as agreed when mucky farm was

he said he had been at the land was called

a farm but he thought it was killing

in it influenced by the landfills they owned

cut off.

Big

Harry-McMucky - head guy from waste area

on highway - space center - former pleistocene

waste & mucky

dumping done by waste

NOTES FROM GWSW ST. PAUL & RAMSEY COUNTY FILE RESEARCH

Area across from Capitol Supply on Lafayette Road (up hill from MPCA) has been used by the City of St. Paul to disposed of street sweepings. An analysis from the street sweepings indicate metals. The sweepings were disposed at site when it was opened.

Space Center had 17 trucks and two customers; 16 for 3M waste and one for American Can.

Fish Hatchery Dump closed on March 13, 1971.

Pigs Eye dump in 1971 received 5000 cubic yards daily. Amount was expected to go up because of the ban on backyard burning.

70 acres were filled in on Pigs Eye between 1960-1964.

ITEMS TO CHECK INTO FURTHER

Metropolitan Council required that landfills in seven county metro area be opened to all within that seven county area. Did St. Paul allow nonresidents to dump again in Pigs Eye?

Waste Water Treatment Plant dumped solid waste, bar screenings, and grit on the site in 1973.

Industrial Steel Co. reconditioned barrels it received from 3M. Barrels containing solvents were accumulated and sent back to the 3M Chemolite plant for incineration. Waste Control picked up the ash. Where did ash go then?

There is evidence of industrial waste going down the sewers at the time the ash and/or sludge was placed on the site.
